Hi Phimetto,

Thank you for inviting me to participate.

I want to let you know that it was a very well thought out, organized, informative and worthwhile session.

I have been to similar community meetings before and this one was by far one of the best. To the point (no wasted time), informative and impactful.

I loved having the panelists from each area doing their own brief presentations; speaking to and engage with the community about how their areas are contributing; and giving first hand “the why” behind their involvement.

I believe it is always a good thing to have the folks doing the work be actively involved in planning and explaining its impact and how all pieces work together for the greater good if you will of the community.

One of the things that stood out to me and was most impactful, was how the community members are so excited about the plans already.

I have been to some similar meetings where the community doesn’t fully understand and they come with more push back than support, and leave with so many unanswered questions; but I didn’t see that here at all.

I believe a lot of that is directly contributed to how you have engaged with them before, during and your plans to continue the communications after the meetings.

So pat yourself and your department on the back for a job very well done. 😊

I look forward to seeing how this all unfolds and want to be present when this becomes a reality for the citizens of SE Gainesville (my old neighborhood).

Sincerely,

Ericka Jackson | Lead Analyst, Next Day Generation Planner

Subject: East Gainesville Urgent Care Medical Center meeting

Dear Team:

Let me take this opportunity to thank you for your support, and also for providing your service as a note-taker, giving input on the process, or attending a meeting. Whatever your contribution in preparing for and/or attending the neighborhood East Gainesville Urgent Care Medical Center meeting, I appreciate you!

As you know, ongoing community engagement discussion is vital to ensure the successful implementation of land use and re-zoning for any project, and I look forward to all of our collective efforts to foster positive outcomes in our Gainesville community.

Again, thank you for your encouragement and support to the value and mission of this project.

Sincerely,

Phimetto D. Lewis
