19. Will you be seeking any owner-direct purchase, mainly the shade structures or something similar?  
Yes, the City will entertain the owner-direct purchase of the shade sails. Include the purchase price of the shade sails within your bid.

20. Can I submit an "equal" shade sail for use on this project?  
Please see Article 11 of the Instructions to Bidders for instructions on how to request "or-equal" or substitute items. Requests must be made at least 15 days prior to the date for receipt of Bids.

21. Since there isn't a site work permit for this project does that mean that I don't have to control erosion and sedimentation on site?  
No, the contractor is still responsible for controlling erosion and sedimentation on site. While this project does not trigger the threshold of requiring a site work permit, E&S must be controlled through the contractor's means and methods. Alachua County's Environmental Protection Division has the right to inspect all sites within their area of jurisdiction.

22. Do you want a warning track constructed on the fields?  
No, there is not currently one, and the City does not want one.

23. Are there specifications for the Tom Petty Park Improvements bid? I see the drawings and ITB but do not see any specific specs for the products.  
The project specifications are included within the TPP Plan Set document. Please see sheet number C1.00.
