Instructions for Drainage Connection Permit

Pursuant to 14-86.004(5), F.A.C. Once approved by the Department, the drainage connection application and supporting documents become the Drainage Connection Permit.”

Each completed Drainage Connection Permit package shall include the following items. If an item does not apply to your project, indicate “Not Applicable” or “N/A.”

Included	Part	Title	Completed by:	Special Instructions
	1	Permit Information Sheet	Applicant	
	2	Certification by a Licensed Professional	Licensed Professional	Signed and Sealed
	3	Certification	Applicant	Signature
	4	Owner's Authorization of a Representative	Owner	Signature
	5	Affidavit of Ownership or Control and Statement of Contiguous Interest	Owner	Signature
	6	Permit General Conditions	FDOT	
	7	Permit Special Conditions	FDOT	
	8	As-Built Certification	Licensed Professional	Signed and Sealed – Submit within 15 working days of completion of construction
	Attachment	Legal Description		
	Attachment	Photographs of Existing Conditions		
	Attachment	Location Map		
	Attachment	Grading Plan		
	Attachment	Soil Borings	Licensed Professional	Signed and Sealed
	Attachment	Water Table / Percolation		
	Attachment	Calculations		
	Attachment	CD with Electronic Files of all Submittal Items		Scanned Images in pdf format

Note: Different Licensed Professionals may complete parts of the permit package. For example, the Licensed Professional signing and sealing the as-built certification may be different from the Licensed Professional who signed and sealed the calculations for the permit package.

EXCEPTIONS: Activities that qualify for an Exception are listed in Rule 14-86, F.A.C. A permit application to the Department is NOT required. However, if you desire verification whether the work qualifies for an exception, send a completed copy of this permit package with its requested information to the applicable FDOT District Office.

Brief description of facility and proposed connection:

The proposed development is the construction of roadway infrastructure from SE 8th Ave to SE Hawthorne Rd, with a portion running east and west to the eastern and western parcel boundaries. The project also includes the construction of sidewalks, utility infrastructure, and a stormwater management facility. The project site is located between SE 8th Ave and SE Hawthorne Rd, adjacent to the Gainesville Technology Entrepreneurship Facility, Gainesville, FL. The project site total area is approximately 6.50 acres.

Briefly describe why this activity requires a Drainage Connection Permit (Include where the stormwater will discharge to FDOT right of way):

The property borders an FDOT roadway, and there's a small affected area. The amount of runoff draining to FDOT is being reduced.

PART 2 – Certification by a Licensed Professional

In accordance with Rule 14-86, Florida Administrative Code (F.A.C.), I hereby certify that the following requirements are and/or will be met.

This project has been designed in compliance with all applicable water quality design standards as required by state governmental agencies.

14-86.004(3)(f) (F.A.C.): Certification by a Licensed Professional that the complete set of plans and computations complies with one of the following Rules Sections:

14-86.003(2)(a) (F.A.C.), or 14-86.003(2)(b) (F.A.C). (check one)

I further certify that a National Pollutant Discharge Elimination System (NPDES) permit for stormwater discharges associated with industrial activity from construction sites

is required is not required. (check one)

I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment.

This certification shall remain valid for any subsequent revision or submittal of plans, computation or other project documents by me.

PART 6 – Permit General Conditions

1. This permit is a license for permissive use only and does not convey any property rights either in real estate or material, or any exclusive privilege and it does not authorize any injury to private property or invasion of private rights, or any infringement of Federal, State or local laws, rules or regulations; nor does it obviate the necessity of obtaining any required state or local approvals.
2. The drainage connection as authorized herein shall be constructed and thereafter maintained in accordance with the documents attached hereto and incorporated by reference herein. All work performed in the Department's right of way shall be done in accordance with the most current Department standards, specifications and the permit provisions. Such construction shall be subject to the inspection and approval of the Department, and the Department may at any time make such inspections as it deems necessary to assure that the drainage connection is in compliance with this permit.
3. The entire expense of construction within the Department right of way, including replacement of existing pavement or other existing features, shall be borne by the permittee.
4. The permittee shall maintain that portion of the drainage connection authorized herein located on permittee's property in good condition. The Department shall maintain that portion of the drainage connection authorized herein located within its right of way.
5. If the drainage connection is not constructed, operated or maintained in accordance with this permit, the permit may be suspended or revoked. In this event modification or removal of any portion of the drainage connection from the Department's right of way shall be at the permittee's expense.
6. The Department reserves the right to modify or remove the drainage connection to prevent damage or in conjunction with road improvements.
7. It is understood and agreed that the rights and privileges herein set out are granted only to the extent of the Department's right, title, and interest in the land to be entered upon and used by the permittee, and the permittee will, at all times, assume all risk of and indemnify, defend and save harmless the Department from and against any and all loss, damage, cost or expense arising in any manner on account of the exercise or attempted exercises by said permittee of these rights and privileges, regardless of the respective degrees of fault of the parties.
8. Utilities, including gas lines, may exist within the right of way. Prior to beginning work the permittee shall contact Sunshine State One Call of Florida, Inc at 811 or 800-432-4770, who will notify all utility owners near the scheduled project. The utility owners have two (2) full business days to provide locations of their respective facilities. The permittee shall be solely responsible for any damage to or conflicts with gas lines, utilities and/or third persons.
9. The permittee shall notify the Department of Transportation Maintenance Office located at _____
Phone _____ 48 hours in advance of starting any work on the drainage connection authorized by this permit and also 24 hours prior to any work within the Department's right of way. Construction of any work on the right of way shall be completed within _____ days after such notification. If such construction is not completed within _____ days after such notification, the permittee shall notify the Department of the anticipated completion date.
10. This permit shall expire if construction on the drainage connection is not begun within one year from the date of approval and if construction on the drainage connection is not completed by (Date) 3/10/2024.
11. A permittee may request an extension of the Drainage Connection Permit expiration date by filing a written request for a permit time extension. All requests for time extensions must be received by the Department 15 working days prior to the expiration date.
12. All the provisions of this permit shall be binding on any assignee or successor in interest of the permittee.

PERMIT TERMS AND CONDITIONS

FDOT Gainesville Maintenance

All construction and/or maintenance on the Department’s right-of-way shall conform to the most recent editions of: FDOT Design Standards, the FDOT Standard Specifications for Road and Bridge Construction, the FDOT Plans Preparation Manual Volume 1, and the Manual on Uniform Traffic Control.

The permittee shall be responsible for any damages caused by the construction associated with this permit. The permittee shall repair any damages according to the most current standards.

All damaged concrete within the project limits shall be replaced joint to joint.

All portions of the right-of-way disturbed during construction associated with this permit shall be sodded as follows:

- Urban Areas: sod with St. Augustine, Bermuda or Centipede, FDOT will specify.
- Rural Areas: sod to match existing.

48 hours before digging operations the contractor shall call Sunshine State One Call at 811. The permittee is cautioned that utilities may be present within the construction area.

No tree trimming or tree removal will be allowed unless special permission is granted by the FDOT.

The permittee shall maintain proper placement and condition of all existing FDOT regulatory and/or informational signs.

Notify the Department of Transportation Maintenance office 48 hours in advance of starting proposed work at (352) 381-4316 or (352) 575-3713.

The connection to or modification of any portion of the FDOT stormwater system is prohibited unless approved by a separate drainage permit.

All permits shall include a maintenance of traffic plan before any work can begin. A worksite traffic supervisor with a certification from the FDOT approved Work Zone Traffic Control Course must be on-site anytime the contractor is working in the FDOT right-of-way.

All lane closure shall be called in to the FDOT Maintenance Office at (352) 381-4300 when the lane is closed and immediately after the lane is open.

Pedestrian traffic shall be detoured around the work area in a safe manner and in accordance with the FDOT Design Standards Index 660.

Prior to beginning construction, a lane closure analysis (per Plans Preparation Manual 10.12.7) must be performed and submitted for FDOT review and approval to determine allowable lane closure hours.

An onsite preconstruction conference will be held prior to starting any work.

No unapproved signs are to be placed on or overhanging into the right-of-way.

There shall be no tracking of soil from the permitted job site onto the roadway. If tracking does occur, the permittee and or contractor shall install the “Soil Tracking Prevention Device” per Standard Index 106.
