Why are you interested in serving on this board? (Please answer separately for each board you are applying to.):

Gainesville has seen aggressive "contemporary style" developments within UF campus peripheries due to the demand for student housing in District IV. These developments, along with many smaller developments, often border historic neighborhoods, yet lack any exterior or interior remnant of the historic architectural styles which define the city's integral social and cultural structures. Upon attending board meetings, I have gained an appreciation for the sternness present among board members to protect such history. Although my time in Gainesville may be short-lived, I hope to participate in the maintenance of the city's history which I have grown to appreciate and love.
