IPM tailors plan design to meet the unique needs of our clients to deliver high clinical excellence. IPM clinicians (physicians and clinical pharmacists) review all prior authorization requests. Additionally, IPM works directly with accredited independent review organizations to provide board certified, specialty matched physicians under our Complex Medical Specialty program to deliver high quality care to members we serve with complex chronic conditions. This next level care helps to ensure members receive therapies consistent with standards of care, reduces prescription latency times, and clients can be confident of our commitment to fiscal stewardship.

Complex Medication Therapy - Biosimilars Peer-to-Peer Program which directs members with the originator to biosimilar transitions for slow adopters. Typically, IPM clients will see a ROI of at least 4:1.

IPM is willing to discuss ROI guarantees.

IPM's unique Enhanced Care Management for Specialty Drugs provides access to exclusive specialty U.S. licensed pharmacies with significantly discounted rates exceeding an additional 20% discount. This program incorporates into the existing plan structure with no material modifications, and it can be offered to an employer group in combination with a copay waiver or discount. ECM provides an

additional level of care, not a replacement, meaning patients keep their existing physician relationships. With the implementation of ECMP - PharmaStrategies administers the program but the clinical support stays in-house.

**9. Is insulin or other diabetic supplies such as glucometers, test strips, lancets, etc. considered under the pharmacy benefit proposed or subject to medical plan benefits? If subject to medical plan benefits, please confirm service category.**

IPM includes diabetic supplies (including test strips) in the pharmacy benefit.

**10. Is proposed pricing offer based on implementation of any new mandatory mail programs, clinical programs or plan design changes?**

ECMP is new program that will require implementation. IPM offers the Enhanced Specialty Drug Program for specialty drugs to address the high cost impact of specialty medications on plan performance. This innovative program provides clinical resources to patients to manage difficult and expensive-to-treat conditions. The Enhanced Specialty Drug Program allows members with access to the same specialty medication, while also allowing the patient to maintain the existing relationship with their specialty prescriber.

**11. Does prescription drug proposal(s) allow the client the right to accept or reject formulary content decisions that impact plan design? Please provide data analytics specific to the client's drug mix and the associated economic impact.**

Our team of pharmacy champions and innovators are implementing new strategies that deliver a better prescription benefits plan for clients with lower costs, design freedom, superior people-centric service, choice and control, with accountable results.

- Total Choice and control, no restrictions to your options
- Advance technology is adaptable and scalable
- Total Cost management - 20% savings

Custom formularies are an option at an additional fee, but IPM's strategy reflects optimizing the plans drug mix ensuring cost containment with limited to no changes to plan design.

An optimized claims mix presents an opportunity for enhancing both client/member satisfaction and financial performance. A well-managed pharmacy benefit strives for a balanced approach, ensuring patients have access to necessary treatments while managing costs for clients. To achieve this, IPM implements programs targeting cost-drivers, such as maximizing generic utilization. This includes reviewing specialty and brand medication use for appropriateness, ensuring the most cost-effective options are utilized. Additionally, IPM focuses on clinically managing medically necessary brand and specialty drugs, directing fulfillment to the most cost-effective channels.

When thinking about plan design strategies around the pharmacy benefit there are number of levers that can be pulled, however the key is ensuring that they are not too difficult to understand by patient and provider - most importantly ensure that patient care is not being compromised.

**12. Is proposer willing to grandfather existing users of a non-covered drug? If so, please confirm if indefinite or subject to a defined time period (i.e. 12 months).**

**13. Is proposer willing to grandfather existing users of medications that require prior authorization (including specialty medications) without having to meet proposer's requirements?**

IPM will grandfather two fills for members.

**14. What is the generic substitution policy and process for both mail order and retail?**

IPM's policy for generic substitution includes strategies that maximize generic use as allowed by state laws and physician orders. As a savings driver and examining average drug utilization, over \$450 in savings per prescription is available for each conversion from a brand name drug to a generic drug. Our standard plan recommendation includes IPM's Generic Incentive Program, which accommodates the member's election of brand drug where generic is available; however, the member pays the difference in all cases.

IPM employs an effective "negative formulary" state, where substitution of generic equivalents is maximized to include all transactions except for a list of only six medications, where narrow therapeutic indexes and patient safety are a concern. Generic substitution is enforced using industry standard bioequivalence ratings, as published by the FDA as TEC values.

This approach extends to Specialty Drugs. Biosimilar (generic) medications are preferred over Reference (brand) biologics to maximize use of drugs with the lowest net cost, resulting in savings for both the employer-client and member-patient.

Since IPM is not vertically integrated by choice and does not own a mail order pharmacy, this policy extends to both retail and mail. IPM is not incentivized to increase brand profit at the client's expense.

All discount guarantees will be trued up on an annual basis 90 days after the end of each contract year?**

Confirmed with deviation - 120 days.

**18. Self-Insured PBM: Does prescription drug proposal(s) ensure that Average Wholesale Price (AWP) for individual claims will not be an annual average, is from one consistent source and will not, in any way be calculated or adjusted or assigned an alternate NDC number?**

Confirmed.

**23. Self-Insured PBM: Each proposer must confirm that the client will receive all quarterly formulary rebate and reconciliation payments within 90 days of quarter's close. If "Not Confirmed," indicate the number of days that you will pay quarterly rebates within?**

GLP-1 Program Integrated Copay Card; Specialty Program

1. Complex Medical Specialty Program: IPM's Complex Medical Specialty program matches board certified physician reviewers with complex therapeutic cases to ensure appropriate utilization based on FDA-approved labeling, nationally-recognized clinical standards (i.e., NCCN, IDSA, etc.), and to decrease time to treatment for timing-sensitive critical therapies.

a) Biosimilar Peer-to-peer Program:

Directs members with the originator to biosimilar transitions for slow adopters

- Reviews with board-certified specialists are available.
- Prospective and retrospective reviews are available under the program.

Program Impacts/ Parity considerations:

- Member Impact: (1) Continued competitive rebate offerings by originator product may insulate members from rapid disruption; (2) Opportunities exist to offer shared cost savings to member through tiered copay of specialty biologic agents;
- Interchangeability: Interchangeable products are recognized by the FDA to be able substituted for the reference product without intervention by the prescriber; providing variety of biosimilars and interchangeable products offer multiple avenues for member access.
- Cost factor: Introduction of biosimilars drives net costs down inclusive of high list price products if still rebate eligible; appropriate tiering of products with consideration of lowest net cost to client and members informs decisions.
- Product availability: Biosimilar production stability key to minimize multiple moves for members; when product not interchangeable, unstable product availability may create increased need for intervention by prescriber.

# IPM's Focus Formulary Exclusion List

## Are your prescription medications covered by your health plan?

If you use a non-covered drug, you may pay the full price. Talk to your doctor about switching to one of the alternative drugs listed on the formulary.

### What is a formulary?

Integrated Prescription Management (IPM) is trusted by your employer or health plan to help you get the medicine you need to feel better and live well. Our pharmacy experts work hard to make medicine more affordable for everyone.

IPM's Focus Formulary is the list of drugs covered by your health plan. It was designed to push back against today's high costs for medicine. The Focus Formulary works by offering alternatives to more expensive drugs. This helps people get the right medicine at the best cost.

### Some drugs will not be listed on the Focus Formulary.

If a drug is not on the formulary, it may not be covered by your health plan. This publication lists many of the non-covered drugs along with alternative drugs that are covered.

The list is divided into four sections:

- 1. Non-covered with preferred alternatives**

Alternatives to non-covered drugs — potential options at better costs.

- 2. Standard non-covered drugs**

Lists reasons why these drugs are not covered.

Additionally, some health plans or groups may choose not to cover drugs for the following reasons:

- 3. Non-covered with over-the-counter alternatives**

For prescription drugs that have an effective medicine available from your pharmacy.

- 4. Non-covered due to high costs**

Safe, effective alternatives are available at lower costs.

The formulary guide represents changes (non-covered and covered alternatives) that may not be effective until July 1, 2024. The formulary is reviewed bi-annually and changes are made to ensure clinical appropriateness of the formulary while giving members access to lower cost alternatives. Notifications are sent out each quarter to affected members of new non-covered drugs.

# Redefining PBM: Your People's Benefit Manager

IPM, with a foundation dating back to 2009, distinguishes itself in the PBM industry through a deeply ingrained commitment to prioritizing members above all else. Functioning as the People's Benefit Manager, our ethos revolves around transforming the traditional PBM model to center on the individual's journey and access to quality care. By fusing data analytics with authentic intelligence, we bring the human element into the equation, to create better personalized experiences that carry members through the pharmacy journey.

What sets us apart is our unwavering dedication to being a no-conflict PBM. Meaning, our clinical and cost containment consultations are driven solely by the best interests of our clients and members, without influence from shareholders' agendas or steerage to fulfillment channels owned by many of our competitors. Our member service team is exclusively based in the US and is comprised of seasoned pharmacy technicians. This offers a unique advantage by seamlessly blending expertise with empathetic guidance, resulting in a genuinely human-centric experience for members navigating their pharmacy benefits.

The longevity of our top clients, with an average tenure of 9 years, serves as a testament to the tangible outcomes of our service-oriented approach. We make integrity and equality non-negotiable principles in our company culture. We set a standard for excellence that inspires confidence and loyalty among clients and employees, prioritizing long-term relationships over short-term gains. Furthermore, our commitment to transparency and accountability is evident in our submission, ensuring that the service we promise is quantifiable and consistently delivered to each shared client.

Operational excellence is another cornerstone of our differentiation strategy. By streamlining processes and leveraging our expertise, we exceed industry standards with quick and accurate implementation timelines, surpassing the typical 90-day market standard.

Our no-conflict stance affords us unparalleled flexibility to accommodate the unique needs of our partners and their clients. Whether it involves devising bespoke clinical strategies, incorporating third-party products, or adapting plan designs to meet specific client needs, our values are firmly aligned with the interests of our clients and their members. This alignment enables us to provide personalized solutions for the City of Gainesville.

IPM epitomizes the concept of a People's Benefit Manager. While providing the essential services expected from a standard PBM, we go above and beyond by championing a service quality and member-centric philosophy that permeates every aspect of the pharmacy benefit experience.

# Clinical Philosophy:

## A People-Centric Approach

At IPM, our clinical framework and product development are intricately woven around the value they bring to the member. Grounded in our people-centric approach, we prioritize the individual's well-being and strive to enhance their healthcare experience through tailored solutions and personalized care. There is a complexity to navigating the world of pharmacy, and we believe it is crucial to broaden our perspective to truly grasp the value we bring to both our members and clients. We recognize that each member has unique healthcare needs. Our approach focuses on delivering personalized consultations tailored to individual member circumstances.

Collaboration is ingrained in our DNA. We do not see ourselves as just service providers, rather as aligned partners in our members' healthcare journeys. By actively listening and engaging with both clients and members, we gain a deeper understanding of their dynamic needs. With the influx of new specialty drugs entering the market at hefty price tags – drug mix becomes a significant piece of the puzzle. We collaborate with clients, members and their providers to decide the right course of individualized care.

Inherently, our approach is thorough and efficient because it is centered around the people we serve. We acknowledge the intricacies of each person's circumstances and are dedicated to equipping them with the information and assistance necessary to navigate the complex realm of pharmacy benefits with confidence and simplicity.

# A Different Kind of Service

## Client Experience Model

In an arena where promises often outpace delivery, we distinguish ourselves by prioritizing integrity and equality in every interaction. Client experience is often preached yet rarely practiced uniformly.

Larger clients, yielding substantial financial returns for PBMs, typically receive preferential treatment, enjoying more robust models and superior service. Conversely, smaller clients may find themselves sidelined, with less engaged account teams and limited access to crucial clinical support.

At IPM we firmly believe that every client merits equal attention, support, and expertise. At the heart of our organization lies the fundamental question: "Does this enhance the client and member experience?" This question serves as the guiding principle across all vital pillars of our organization, whether it is the development of clinical products, the implementation of adoptive strategies, or the execution of operational initiatives.

Our client service team boasts an impressive average tenure of 10 years in the pharmacy benefit industry, demonstrating a rare level of commitment not only to our industry but also to the company, many of them having been with us since its inception. Their ability to stay agile and adaptable in an ever-changing industry drives continuous improvement and innovation to stay ahead of the curve. This continuity and expertise have contributed to our remarkable 95% client retention rate

At every touchpoint, we strive to exceed expectations and deliver value that goes beyond the transactional. Our goal is to cultivate positive experiences and lasting partnerships, driving success for our clients and their members. It's not enough to simply talk about the importance of client experience; it must be consistently practiced at every level of an organization; prioritizing integrity and respect in every interaction distinguishes IPM from its competitors and lays the foundation for enduring success built on trust, respect, and mutual benefit.

IPM operates with a patient-centric approach, focusing on better outcomes through clinical care management packages for both traditional and specialty medications. By maintaining a fulfillment-agnostic business model, IPM remains aligned with client goals with the sole intent to improve patient outcomes rather than being influenced by pharmacy ownership interests. Putting members first is the right, ethical approach that avoids potential conflicts of interest and ensures that clinical programs are not tied to just fulfilling prescriptions but reducing waste appropriately and improving efficiency.

It is prudent for IPM to adapt its clinical offerings to the ever-changing dynamics of the pharmacy market. This allows us to remain responsive to shifts in the healthcare landscape, regulatory changes, emerging therapies, and advancements in medical science. By staying flexible, we guarantee that our clinical programs are always relevant and effective in meeting the evolving needs of our clients and patients. Our ability to quickly adapt demonstrates a commitment to staying at the forefront of pharmacy management and maximizing positive outcomes for all stakeholders involved.

IPM shall direct Network Pharmacies to charge and collect the applicable Copayment from Members. Pursuant to a provider network agreement, IPM contractually requires each

Network Pharmacy to meet IPM's credentialing requirements, including but not limited to licensure, insurance and operational standards.

**2.4 DUR.** IPM will provide automated concurrent drug utilization review (DUR) services for Network Pharmacy point-of-sale Claims. Client acknowledges that: (a) the DUR system is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill, and judgment of physicians, pharmacists, or other health care providers in providing patient care; and (b) Network Pharmacies and pharmacists are individually responsible for acting or not acting upon information generated and transmitted through the DUR process, and for performing services consistent with the scope of their licenses. Accordingly, IPM assumes no liability to Client, Plan, any Member, or any other person in connection with the DUR services, including, without limitation, the failure of the DUR services to identify a prescription that results in injury to a Member. IPM will update DUR databases on a reasonable basis to reflect changes in available standards for pharmaceutical prescribing.

**2.5 Clinical Management Program.** IPM shall provide the clinical services as required or requested by Client as described in Exhibit A, including prior authorization ("PA") and step therapy services. adjudicated and verified for eligible Members who are later found to be not eligible.

**3.2 Plan Specifications.** Within a reasonable time prior to the implementation of the Services, Client shall furnish IPM the details of the Plan's benefit design in the Plan Specifications documentation prepared by Client with the assistance of IPM. Client will immediately provide IPM written notice of any changes or updates in the benefit design and shall update the Plan Specifications documentation, and IPM will notify Client of the implementation date of such change or that such change cannot be implemented as requested. **4.2 Termination.** Except for Client's breach of its payment obligations as set forth in Section 5, if there is a material breach of any provision of this Agreement, and that breach remains uncured for thirty (30) days after the breaching party receives written notice of the breach, the non-breaching party may terminate this Agreement effective on the expiration of such thirty (30) day period. Client's failure to pay Fees (as defined in Section 5.1) on a timely basis shall be deemed a material breach of this Agreement which must be cured within five (5) days of written notice identifying the payment breach or IPM shall have the right to pursue the remedies to obtain payment set forth in Section 5.

No posting of a bond will be required.

NO PARTY SHALL BE LIABLE FOR ANY INDIRECT, PUNITIVE SPECIAL OR CONSEQUENTIAL DAMAGES, REGARDLESS OF THE FORM OF ACTION (WHETHER IN CONTRACT, TORT, NEGLIGENCE OR OTHERWISE) EVEN IF IT IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. No party will be liable to the other party(ies) for any claim which is asserted by the other party more than one (1) year after such party is or reasonably should have been aware of such claim.

**9. Dispute Resolution.** Client and IPM agree that in the event any dispute arises between them, they will meet and confer in good faith to settle the dispute. In the event these discussions do not resolve the issue within sixty (60) days following the first meeting, the dispute will be submitted to binding arbitration. Any dispute arising out of or relating to this Agreement or the breach, termination or validity hereof shall be settled using a single arbitrator in Fresno County, California in accordance with the commercial arbitration rules then in effect of the American Arbitration Association or the American Health Lawyers Association. IPM or Client shall send written notice of any dispute to the other parties sixty (60) days before submitting the dispute to binding arbitration. The award entered by the arbitrator shall be final and binding on all parties to arbitration. With respect to any dispute between the parties, each party shall bear its own attorneys' fees, except as otherwise authorized by law or statute, and each party shall pay its pro rata/equal portion of the arbitrator's charges and expenses.

## **10. Miscellaneous.**

**10.1 Compliance with Law.** Each party is responsible for ensuring its compliance with any laws and regulations applicable to its business, including any necessary licenses and permits.

Nothing contained in this Agreement should be construed to constitute a “gag clause” preventing the provision of Client data to Clients and their authorized business associates. Further, IPM attests as of the Effective Date and during the Term that it has not and will not enter into an agreement with a provider or association of providers that would restrict, directly or indirectly, the disclosure of information pursuant to Section 201 of the Consolidated Appropriations Act of 2021; provided that IPM may require Client business associate vendors to sign data sharing agreements as necessary to prevent the public disclosure of IPM confidential information for a purpose other than services to Client.

**10.2 Governing Law.** This Agreement will be governed and construed according to the internal laws of the State of California excluding its choice of law provisions.

**10.3 Notices.** All notices, requests, demands and other communications provided for hereunder will be in writing and will be deemed duly given if (a) delivered in person; (b) emailed, (c) sent by nationally recognized overnight delivery service, or (d) deposited in the United States mail, first class, registered or certified, any of which including return receipt requested, with proper postage prepaid as follows:

**10.4 Severability.** In the event any term or provision of this Agreement is declared to be invalid or illegal for any reason, this Agreement will remain in full force and effect and will be interpreted as though such invalid or illegal provision were not a part of this Agreement. The remaining provisions will be construed to preserve the intent and purpose of this Agreement and the parties will negotiate in good faith to preserve the intent and purpose of this Agreement and the parties will negotiate in good faith to modify any invalidated provisions to preserve each party’s anticipated benefits.

**10.5 Waiver; Amendment.** The waiver by either party of one or more defaults on the part of the other party in the performance of any obligations under this Agreement will not be construed to operate as a waiver of any subsequent defaults. This Agreement may be amended, modified, or supplemented only by mutual consent set forth in writing duly signed by the parties hereto.

**10.6 Relationship of the Parties.** Nothing in this Agreement will be construed to create an employer-employee, fiduciary, joint venture, partner, agent, or any other relationship between IPM and Client except that of independent contractors.

**10.7 Use of Names.** Neither IPM nor Client will otherwise use the other party’s name, symbols, trademark, or service marks without the prior written consent of the other party and both parties will cease any such use upon termination of this Agreement.

**10.8 Change in Law.** The parties will attempt to equitably adjust the terms of this Agreement in good faith, which may include a pricing or Rebate adjustment, to take into account any change in law, administrative or governmental action or any change in drug industry practice that materially alters the rights or obligations of either party under this Agreement (e.g., if a change in law causes IPM’s performance of its duties under this Agreement to become materially more burdensome or expensive, or pharmaceutical manufacturers cease paying rebates). If the parties are unable to agree upon an equitable adjustment within sixty (60) days after either party notifies

the other of such a change in law or material change in drug industry practice, then this Agreement will automatically terminate.

**10.9 Assignment.** Client may assign its rights or obligations under this Agreement to a third party upon notice to IPM and following a standard credit review of the assignee. IPM may assign Agreement to a wholly-owned or controlled subsidiary of IPM or a successor entity under common control in management with IPM without Client consent.

**10.10 Third Party Beneficiary.** This Agreement is not intended to create, nor will it be deemed to create, any third party beneficiary rights including, without limitation, in Members.

**10.11 Entire Agreement.** This Agreement, including the Exhibits and Schedules hereto, is the entire agreement among the parties with respect to the matters covered hereby and will supersede all previous written, oral or implied understandings among them with respect to such matters.

**10.12 Force Majeure.** If either party is prevented from carrying out its obligations under this Agreement, except for payment obligations, by acts of war, civil unrest, riots, fire, labor actions, earthquakes or other acts of nature, by any cause that is beyond the reasonable control of either party, ("Force Majeure"), then such party will be relieved of its obligations under this Agreement. If either party is unable to perform for sixty (60) days from the date of the Force Majeure, then that party may terminate this Agreement, except as mutually agreed upon by the parties.

**10.13 Taxes.** If Client, the Plan, or any obligations under this Agreement, including without limitation the payment of Rebate amounts, are subject to any form of governmental or regulatory charge or tax, (excluding taxes based on the net income of IPM), such charges will be the sole responsibility of Client.

**10.14 IPM Financial Disclosures.** IPM derives revenue from Administrative Fees (if Client's arrangement is a pass-through price structure), the difference between what IPM reimburses the Network Pharmacies and what IPM bills each Client for Claims (if a traditional price structure), additional service fees, and interest that may accrue on Claims Reimbursements prior to payment to Network Pharmacies and Rebates prior to remittance to Client. In negotiating any of the fees and revenues described in this Agreement, IPM contracts on its own for its own account. IPM retains all proprietary rights and beneficial interest in such fees and revenues, and accordingly, Client acknowledges that neither it, Members or Plan has a right to receive or possess any beneficial interest in any such fees or revenues; provided that IPM will pay Client Rebate amounts equal to the amounts set forth in Exhibit A.

**10.15 Survival.** Sections 2.4, 2.7, 4.3, 5-9, 10.2 and 10.3 shall survive termination of this Agreement.

**10.16 Execution in Counterparts.** This Agreement may be executed simultaneously in two or more counterparts, each of which will be deemed an original agreement, but all of which together will constitute the same instrument.

1. Definitions. Capitalized terms used, but not otherwise defined, in this Business Associate Agreement ("BAA") will have the same meaning as those terms as used or defined under HIPAA.

  - C. Business Associate will mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of PHI by Business Associate in violation of the requirements of this Agreement.
  - D. In accordance with 45 CFR 164.502 (e)(1)(ii) and 164.308(b)(2), Business Associate agrees to require that any Subcontractor, to whom it delegates any function or activity it has undertaken to perform on behalf of Covered Entity, and to whom it provides PHI received from or created, received, maintained, or transmitted on behalf of Covered Entity, agrees to substantially the same restrictions and conditions on the use or disclosure of PHI as apply through this BAA to Business Associate through a business associate agreement between such Subcontractor and Business Associate.
  - E. Upon the Covered Entity's written request, and in a reasonable time and manner, Business Associate agrees to provide to Covered Entity PHI maintained by Business Associate in a Designated Record Set as required for Covered Entity to respond to a request for access under 45 CFR 164.524.
  - F. Upon the Covered Entity's written request, and in a reasonable time and manner, Business Associate agrees to make available PHI maintained by it in a Designated Record Set, and to make amendments to PHI, in order for Covered Entity to respond to a request for amendment under 45 CFR 164.526.
  - G. Business Associate agrees to document such disclosures of PHI made by it, and information related to such disclosures, as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI under 45 CFR 164.528.
  - H. Upon written request by Covered Entity, and in a reasonable time and manner, Business Associate agrees to provide to Covered Entity information collected in accordance with Section 2.G for Covered Entity to provide an accounting under 45 CFR 164.528.

The Parties acknowledge and agree that this section constitutes notice by Business Associate to Covered Entity of the ongoing existence and occurrence of attempted but Unsuccessful Security Incidents (as defined below) for which no additional notice to Covered Entity will be required. "Unsuccessful Security Incidents" will include, but are not limited to, pings and other broadcast attacks on Business Associate's firewall, port scans, unsuccessful log-on attempts, denials of service and any combination of the above, so long as no such incident results in unauthorized acquisition, access, use, or disclosure of PHI.

### 4. Obligations of Covered Entity

A. Covered Entity will provide PHI to Business Associate in compliance with the Minimum Necessary standard of the Privacy Rule.   - (ii) Continue to use appropriate safeguards and comply with Subpart C of 45 CFR Part 164 with respect to EPHI to prevent use or disclosure of the protected health information other than as provided for in this Section, for as long as Business Associate retains the PHI; and
  - (iii) Not use or disclose the PHI retained by Business Associate other than for purposes for which such PHI was retained and subject to the same conditions as set out in Section 3 which applied prior to termination; and
  - (iv) Unless infeasible, return to Covered Entity or destroy the remaining PHI that Business Associate still maintains in any form.

The obligations of Business Associate under Section 5.C. of this BAA will survive the termination of this BAA.
